MAPS Digest Online

MAPS Digest, official publication of the Mid-America Paleontology Society, is now available in digital format online and is freely accessible to all, via the University of Iowa's Institutional Repository "Iowa Research Online" at <http://ir.uiowa.edu/midamericapaleo/>. UI Museum Studies students spent over 300 hours scanning printed Digests and organizing them, and other papers, to form the MAPS Archive. Staff at the UI Libraries organized the scanned Digests on the website, and made them searchable. If you are looking for a particular article, you can just enter a keyword (e.g., "cephalopods," a person's name, a fossil locality, etc.) into the "Enter search terms" box and make sure "in this collection" is selected in the box below to restrict your search to MAPS publications. You can also browse the collection with a slideshow view of each cover (View Slideshow), or pages or lists of small images of each cover (Switch View). Digests are displayed in date order, most recent at the top. You can download and print Digests as pdf files. Currently, available issues run from April 1978 (vol. 1 no. 1) to April 2015 (vol. 38 no. 2). We will continue to add more Digest issues, including those already available in digital format on the MAPS website.

The MAPS Archive, which houses original Digests, directories, newsletters, meeting minutes, correspondence, photographs, and official documents, is preserved at the University of Iowa Paleontology Repository. The materials are stored in archival acid-free document boxes (eight so far!) and are accompanied by a "finding aid" that lists what there is and where to find it. Most of the material was donated by Allyn Adams and Madelynne Lillybeck. Although the archive has the complete run of Digests and does not require more copies, MAPS members are welcome to contribute photographs (digital or print) of MAPS-related activities. Contact Tiffany Adrain (tiffany-adrain@uiowa.edu) if you are interested in donating material or would like assistance with access to MAPS Digest copies. Note that Tiffany cannot mail printed copies to you.

Special thanks to UI Museum Studies undergraduate Paige Wilkinson who focused her Museum Studies Internship on organizing and digitizing the MAPS Archive, and Mark Anderson, UI Digital Collections Librarian, for providing access to IRO resources and facilitating online Digest access and searching.

Sue Houg 1953-2017

It is with regret and deep sadness that we report on the passing of Sue Houg, wife of MAPS President Marv Houg. Sue passed away on May 31, 2017 after a long battle with cancer. A complete obituary can be found at:

Dr. John Pojeta 1935-2017

Dr. John Pojeta, Jr. passed away on July 6th, 2017 at Casey House, Rockville, Maryland. John is survived by his wife of 60 years, Mary Lou, his daughter Kim (TJ Oakes), son John (Christine Linn), brother Martin (Linda Pojeta), niece Lee Ann Selkowitz (Eric Selkowitz), plus six grand-children and two great-grand-children.

John is a graduate of the University of Cincinnati, where he founded a life-long domestic and professional partnership with Mary Lou. After graduation, he was appointed to the U.S. Geological Survey and served as geologist, paleontologist, and eventually Branch Chief through a rich and distinguished career. Since retirement in 1994, he remained active as Scientist Emeritus with the U.S.G.S. and a Research Associate of the Department of Paleobiology at the Smithsonian's Museum of Natural History.

John's career focus was Ordovician and Cambrian mollusks. He will be remembered for outstanding teamwork on fossils from Kentucky, Australia, and Antarctica as well as many other parts of the world. He was a career-long member and enthusiastic supporter of numerous professional organizations, but especially of the Paleontological Research Institution and the Paleontological Society. His and Mary Lou's contributions are celebrated by the Pojeta Award (paleosoc.org/grants-and-awards/pojeta-award), which commemorates their indefatigable and splendidly cheerful service to the Paleontological Society and its members over several decades.

A celebration of John Pojeta's life will be held at a future date. In lieu of flowers, please send donations to Casey House hospice, Rockville, MD, the Paleontological Research Institution, or to the Paleontological Society.

The Digest Editors are calling for papers to be included in the EXPO Edition of the Digest. The theme for EXPO XL is the **Permian-Triassic Periods**. Papers dealing with Permian-Triassic fossils, localities, or stratigraphy would be appreciated. The papers should be in Word, Times New Roman, size

12 Font, single spaced, with one inch margins and e-mailed to one of the Digest Editors by the 16th of February 2018.

EXPO Auction Information

A live auction will be held on Saturday evening of EXPO, following a brief business meeting. Also, during show hours, silent auctions will be held. As part of your table fees, you are **encouraged** to donate a correctly labeled, quality fossil(s) or fossil-related item(s) to the Auctions. Information to include with the specimen is as follows:

- Brief description and common name, species information, location, and time period.
- A minimum guide to the value of your donation would be something equal to your table fee: if you have one table, the donation should have a minimum value of \$30; two tables, \$60; etc.

Preference on future table assignments will be given to those who make a donation to the auction as suggested above.

Most proceeds from the auctions go to the Paleontological Society Scholarship Fund and the Strimple Fund, with additional support to the Paleontological Research Institute (PRI) and the Repository at the University of Iowa, which hosts MAPS board meetings. With continued membership support, we hope to continue the trend.

As an interesting note, a number of Auction donations are made by individuals who do not have tables, or who are unable to attend EXPO or the Auction.

Dinosaur Dig to be Sold at Live Auction

Paleo Prospectors is donating a dinosaur dig trip for the live auction Saturday evening. The dig is for 1 week in June or July of 2019 (choice of approximately three different weeks). Possible digs may be in North Dakota, South Dakota or Wyoming.

You will be able to keep almost everything that you find (up to a maximum of \$4,000.00). Only individual bones valued at over \$1,500.00 and articulated bones are excluded. In all cases, however, if you cannot keep your find, you will receive a finder's fee of three percent after the final sale of the object. In most cases

each participant finds several hundred bone fragments, ten or so mostly complete bones and an occasional tooth and claw.

The minimum bid has yet to be determined. If you are not able to attend Expo but would like to bid on the trip, proxy bids can be sent to MAPS EXPO chair Tom Williams, Paleotom234@comcast.net; (815) 228-5083. Payment may be made in 4 installments. For more information on Palo Prospectors digs, check their website: <http://www.paleoprospectors.com>.
